Applicant's election of Claims 1-28 in the paper filed February 2, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 33-39 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 4-10 of prior U.S. Patent No. 6,348,074. This is a double patenting rejection.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 30-32 and 40-59 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The independent claims, claims 30, 40 and 46 are directed to fuel compositions containing combustible liquid fuel and an additive wherein the combustible liquid fuel is "selected from the group consisting of" or "selected from" "kerosene, heating oil, coal slurry and distilled vegetable oil", yet the claims also recite "the additive when combined with mixing with

Art Unit: 1764

diesel fuel". Numerous depend claims also make reference to diesel fuel. Accordingly, it is unclear what the claimed composition contains.

Claims 40 and 46 contain improper Markush language, i.e., claims 40 and 46 improperly recite "selected from" as opposed to "selected from the group consisting of". Accordingly, it is unclear if the claims are restricted to the recited elements of the "group" or whether the claim may contain other, non-recited liquid fuels.

In claim 57, the term "such as vegetable oil" is indefinite. (It is noted that claim 30, from which claim 57 depends, recite "distilled vegetable oil").

Claims 30-32 and 40-59 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
